FOR CHARACTERS AND THEIR INVENTORIES

USER STORIES

A photograph of a business meeting with several people in professional attire. In the foreground, a person's hand is visible holding a tablet displaying a document with text and diagrams. Another person is holding a smartphone. There are coffee cups on the table. The background is slightly blurred, showing more people in the meeting. The text 'USER STORIES' is overlaid in a large, white, serif font in the upper center of the image. There are decorative white dashed lines in the top left and bottom right corners, and a solid orange line in the bottom right corner.

PLAYERS TO BE ABLE TO CREATE THEIR OWN
CHARACTERS TO PLAY THE GAME.

AS A G.O I WANT PLAYERS TO HAVE AN INVENTORY
OF ITEMS FOR THEIR CHARACTERS TO USE IN
THE GAME

AS A G.O. I WANT ~~DIFFER~~ USERS TO BE ABLE
TO CREATE ITEMS ~~TO BE PUT IN INVENTORIES~~
TO EXPAND THE OPTIONS AVAILABLE.

AS A G.O I WANT USERS TO BE ABLE TO

AMEND INVENTORIES

AMEND ITEMS SO THEY CAN BE CHANGED IF
NEEDED.

I WANT PLAYERS TO BE ABLE TO MAKE CHARACTERS
/ INVENTORIES & ITEMS ON A WEBSITE SO
THEY CAN DO IT REMOTELY.

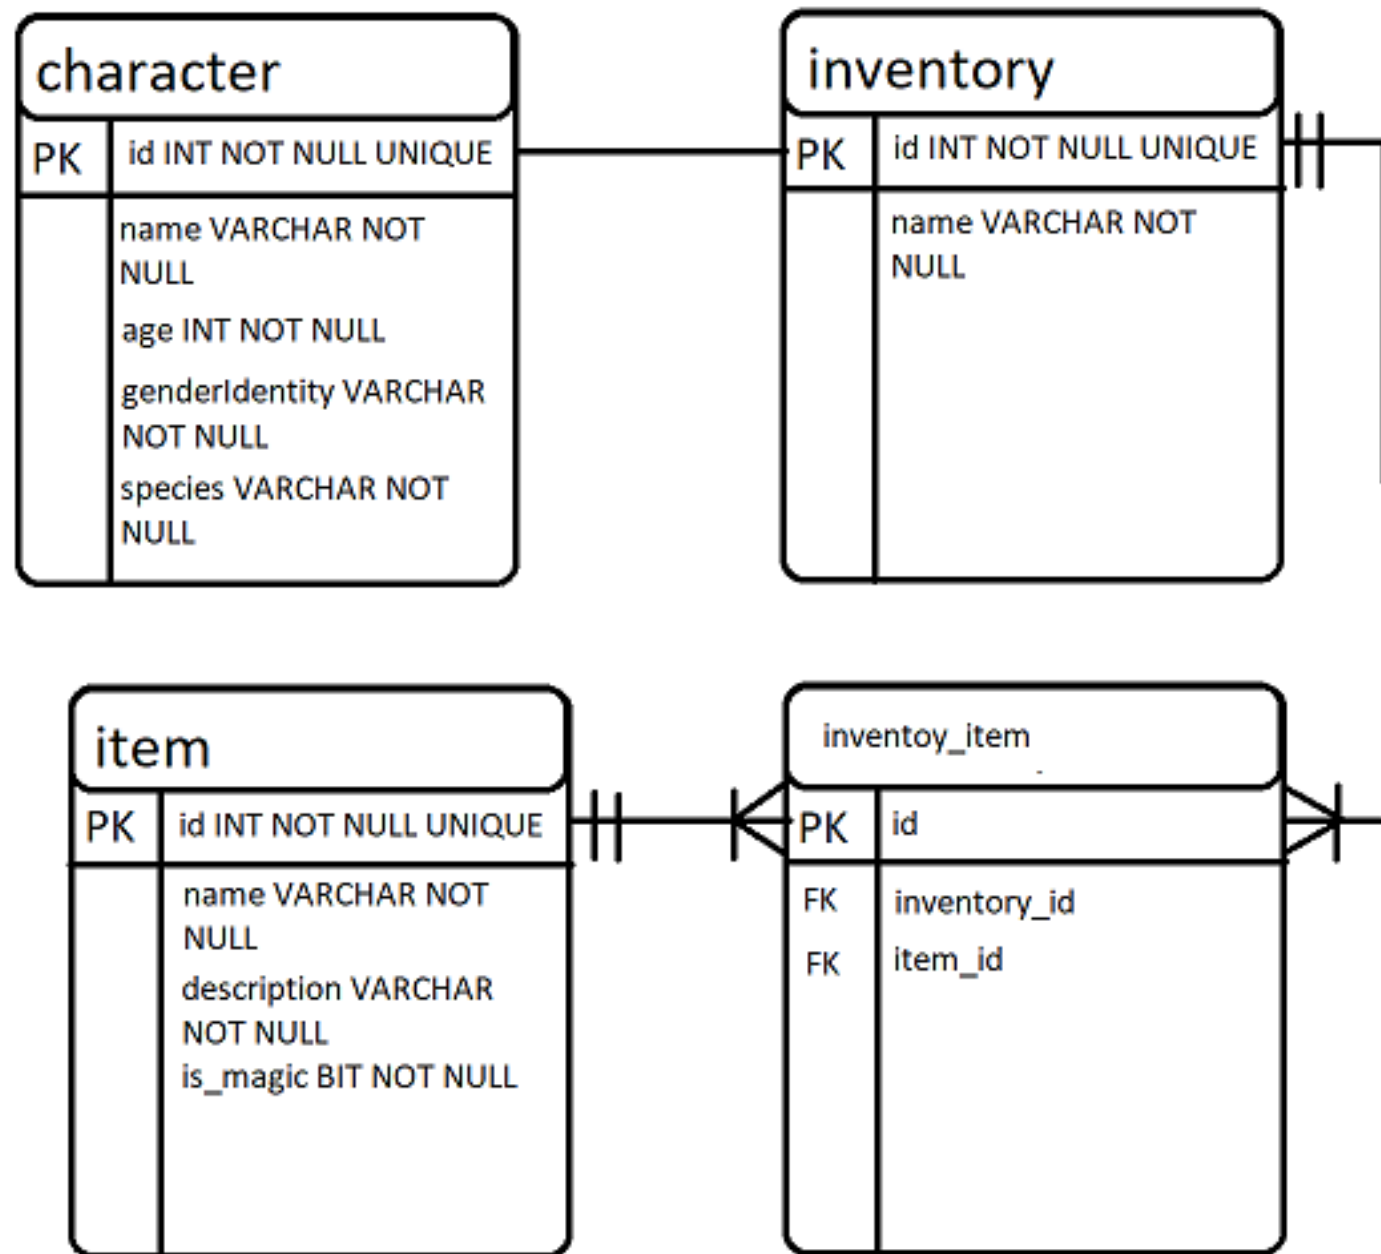

AS A PLAYER I WANT TO BE ABLE TO
CREATE MY OWN CHARACTER TO PLAY
IN A GAME

ADD ITEMS TO THE INVENTORY TO USE
IN THE GAME

AS A PLAYER I WANT TO BE ABLE
TO LOOK AT MY CHARACTER ON A WINDOW
AND SEE ALL OF THE INFORMATION ABOUT THEM
SO I DON'T HAVE TO REMEMBER EVERYTHING

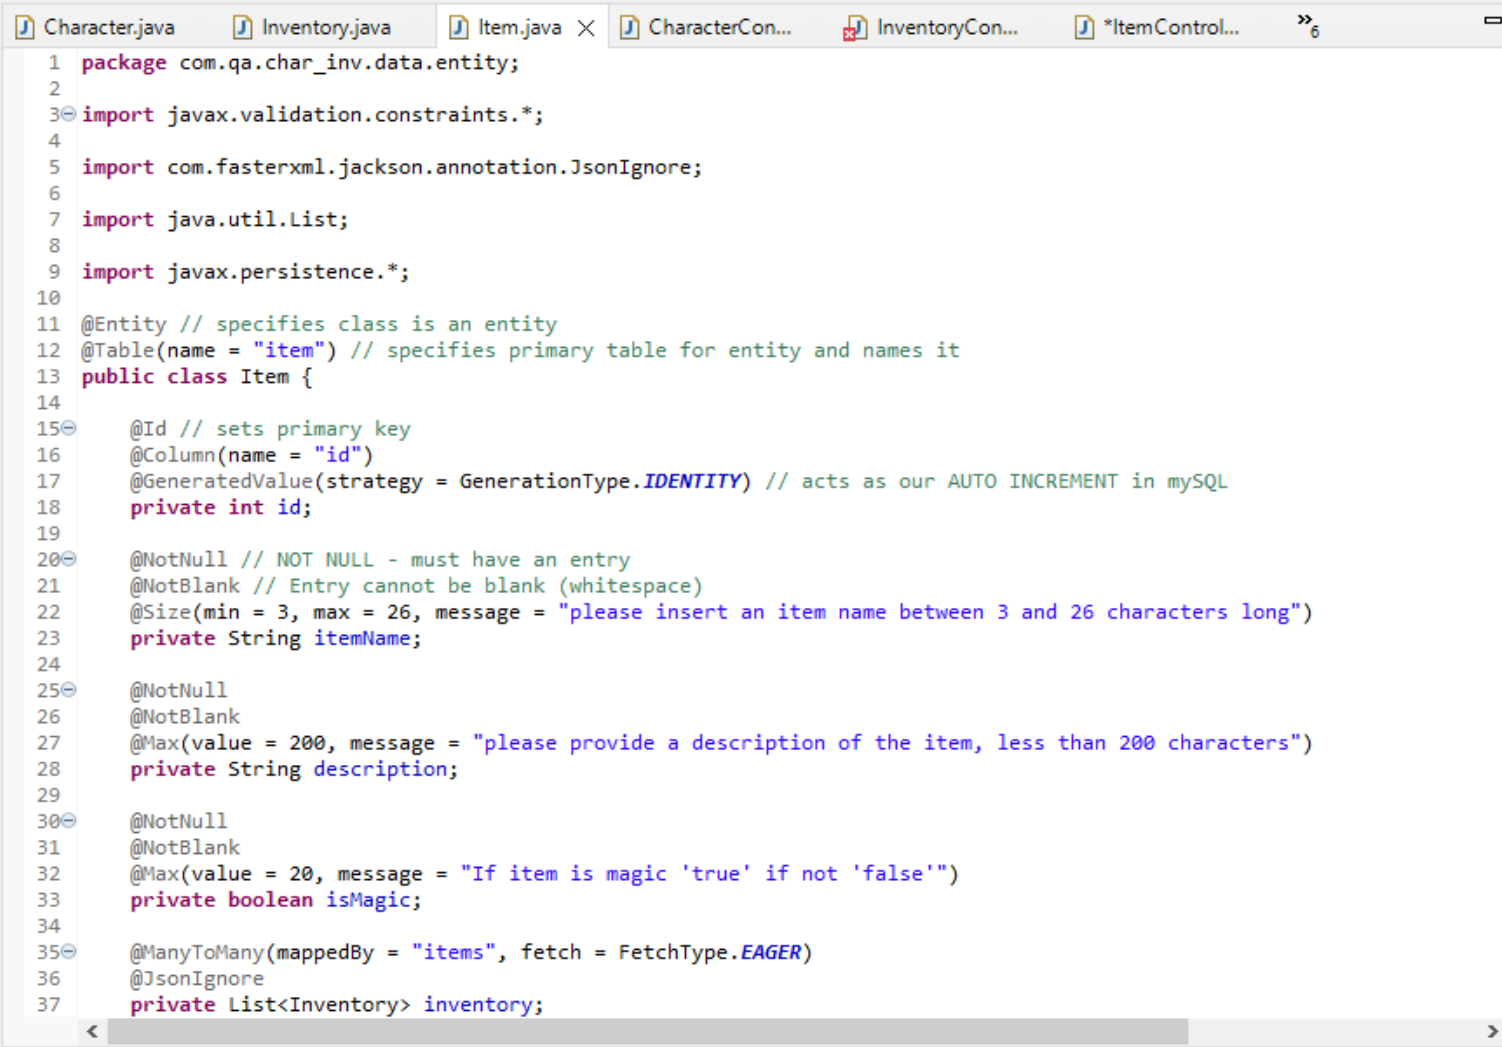

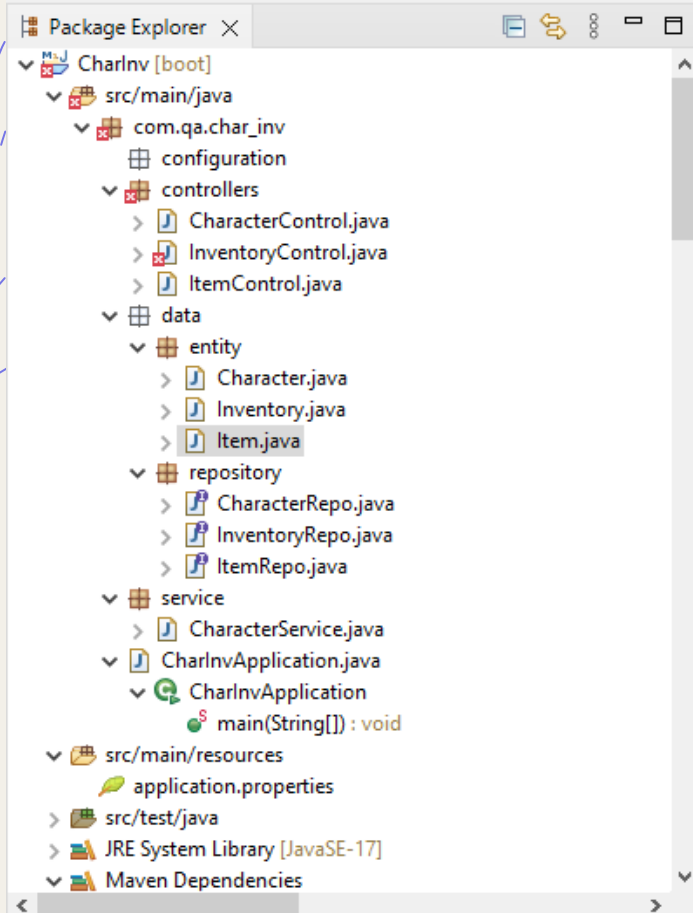

AS A PLAYER I WANT TO BE ABLE TO SEE
WHAT'S IN MY CHARACTER'S INVENTORY

ERD

RISK ASSESMENT

EVENT	LIKLIHOOD	IMPACT	RISK	MITIGATION
Hardware malfunction	Possible	Severe	A hardware malfunction could cause a loss of all and any progress	Risk could be mitigated somewhat by backing up and saving regularly, luckily <u>a</u> online repository is being used for this purpose
Requirements of the task will prove difficult	Likely	Mid	A problem will arise in the course of the project that I will struggle to <u>solve</u> and time will be wasted	Ask for help.
Further research / learning	Likely	Mid	Some of the criteria for the project are still new concepts to me and were only gone over very recently.	I may have to go over some of the information again or research something more <u>in order to</u> complete the project.
Inexperience	Likely	Severe	While I feel I have understood most of what has been taught I - recognise that I am still <u>fairly inexperienced</u> with a number of aspects that are required for this project and so it will be easy for me to underestimate how long it will take me to complete certain aspects of the project	

SPRINT PLAN

HAVE MY ENTITIES MODELLED
WITHIN JAVA & A DATABASE (RELAT)
HAVE FULL CRUD FOR MY ENT
TEST COVERAGE OF 80%
BACK END MUST WORK AS
API AND BE ABLE TO CONN
WITH A FRONT END.
A FRONT END WEBSITE TO
CONNECT TO THE API

CONSULTANT JOURNEY

+JAVA

+SPRINGBOOT

+MYSQL

+HTML

+CSS

+JAVASCRIPT

CI

+ VERSION CONTROL
